

Rockwell Collins Integrated Logistics Support (ILS)

Reduce your total cost of ownership through support plans tailored to your operational requirements.

At Rockwell Collins, we've built a reputation of delivering service and support solutions that guarantee reliability and meet your unique performance requirements.

Integrated Logistics Support (ILS) provides complete services and support throughout the life cycle of our products and systems. Working with you, our ILS team develops plans and integrates both short and long term support considerations into product design. We establish and maintain ILS solutions that address operations and maintenance throughout the life cycle of a system. This ensures you have a reliable support solution providing high survivability for sustained operational readiness.

KEY FEATURES

- › Single point-of-contact backed by a team of subject matter experts
- › Improved availability
- › Predictable costs
- › Performance guarantees (with performance metrics)

Building trust every day

DESIGNING THE SUPPORT AND SUPPORTING THE DESIGN

The Rockwell Collins ILS team works with your support team to create a support plan to meet cost and performance requirements. The ILS team coordinates all elements of logistics support as well as customer-unique requirements. Our focus is on the right amount of support to meet your readiness requirements.

We address and satisfy the U.S. Government and FMS need for technical orders/publications, curriculum, formal and on-the-job training, trainers, training devices, common and unique support equipment calibration requirements, special tools, lifting and handling equipment, spares and provisioning needs for Rockwell Collins' products.

We assist with common support problems including obsolescence avoidance, diminishing sources of supply, technology refresh and technology surveillance. Our extensive expertise in support planning, warehousing and material management, interim and long-term Contract Logistics Support provides the support approach to best utilize your resources.

Our support services include:

- › Failure mode and failure trend analysis
- › Reliability centered maintenance analysis
- › Life cycle cost studies
- › Manpower and personal requirements analysis
- › Workload analysis
- › Computer resource life cycle management
- › Level of Repairables Analysis (LORA)
- › Life Cycle Cost analysis (LCC)
- › Business Case Analysis (BCA)
- › Performance Based Logistics analysis (PBL)
- › Supportability analysis and more

Rockwell Collins utilizes Commercial Off-The-Shelf (COTS) and Government-recommended tools for forecasting, life cycle cost analysis, supply chain optimization, performance monitoring, reporting and real-time visibility.

Building trust every day.

Rockwell Collins delivers smart communication and aviation electronics solutions to customers worldwide. Backed by a global network of service and support, we stand committed to putting technology and practical innovation to work for you whenever and wherever you need us. In this way, working together, we build trust. Every day.
